

# SECRESEA™

Your skin is the largest organ of your body. It is naturally designed to release and defend against toxins. Sadly, in the name of beauty and vanity, most of us are unknowingly immersing our skin in potentially harmful ingredients. Believe it or not, many industrial chemicals are used in personal care products. These are chemicals that are scientifically proven to be toxic and/or detrimental to our health.

At ForeverGreen all of our personal care products are designed using whole food or botanical ingredients; ingredients that are clean and/or organic. Our natural aromas use ingredients such as pure essential oils.

Remember spending those days on the beach soaking up the ocean and then noticing in the mirror the next morning how beautiful your skin looks? Is it the salts? Sea minerals? Sunshine? Or Marine Phytoplankton? Or option 'D': All of the Above?

We are proud to introduce to the world the topical companion to FrequenSea™... SecreSea™. Imagine feeding your skin what it already knows, but never receives... every day. SecreSea™ with Marine Phytoplankton is a five-step system for youthful, vibrant, healthy skin. Watch the appearance of wrinkles diminish.

Beauty secrets since the dawn of mankind. Creating the highest standard for health and beauty inside and out for both men and women.

**WHOLE SALE : \$189.95**  
**MSRP : \$239.95**
